runoutta verkossa | poetry online

Nokturno.fi welcomes submission of new poetry around the year. We release a new issue with new poetry every other month and we are glad to receive digital, experimental and cross-disciplinary poetry – but also any kind of poetry addressing questions of technology and the digital world.

Below you'll find listed few tips for sending us your poetry. If you have any questions, don't hesitate to mail us!

**Text-only** poetry – please prefer pdf.

**Images and photos** – we prefer jpg and png.

**Video poetry** – You can send us a link to your poem in Youtube, Vimeo or elsewhere in the web or if you prefer, a download link to for example Google Drive or WeTransfer.

**Animated poetry** – With older formats please check their compatibility with most common browsers.

**Sound poetry** – we prefer mp3, wav, aac, and flac. If you have your poem available in for example Spotify or SoundCloud, we welcome links to those as well.

**Poetry generators, games, interactive poems, kinetic poetry and apps**– if you are interested in having your work presented or published at nokturno.fi, you can send us a link to the work available online, a link for downloading the file(s) or a link to it's location in an app store.

**Free download of books** – it is also possible to distribute your book via Nokturno.fi. If you or your publisher are considering free online distribution, we're happy to hear from you! We prefer previously published works and ones that have gone through an editing process.

The editorial board at Nokturno.fi is interested in different genres and phenomena in the world of digital poetry, and this list is by no means exclusive. Please let us know about your project!
